

Immigration Key to Sustaining Saskatchewan's Growth

WHEREAS Saskatchewan is a rapidly growing province that is facing continued labour market shortages;

WHEREAS international immigration serves as a vital tool for meeting current and future skilled and general labour needs;

BE IT RESOLVED that a Saskatchewan Liberal Party government will promote increasing permanent immigration levels in order to maintain the prosperity we have experienced in the province. It would ensure that our province has the skilled and unskilled labour force the business community needs in order to remain competitive in a domestic and global marketplace;

BE IT FURTHER RESOLVED that the temporary foreign worker program be phased out gradually, with stronger oversight of the program and with current temporary foreign workers being granted the first opportunity to apply to become permanent residents.

Adopted at Convention, 20 June 2015
