

A Practical Approach to Environmental Sustainability

WHEREAS consensus among climate scientists is that climate change is happening and happening fast;

WHEREAS Saskatchewan has the highest green house gas emissions per capita in Canada;

WHEREAS Saskatchewan is disproportionately dependant on fossil fuels;

THEREFORE, BE IT RESOLVED that a Saskatchewan Liberal government will encourage business to invest in environmentally friendly solutions through the implementation of Saskatchewan venture bonds;

BE IT FURTHER RESOLVED that a Saskatchewan Liberal Party government would invest in the development of sustainable industry in Saskatchewan;

BE IT FURTHER RESOLVED that a Saskatchewan Liberal Party government will promote diverse and sustainable farming practices;

BE IT FURTHER RESOLVED that a Saskatchewan Liberal Party government would provide practical leadership on environmental issues related to current and future economic activity, leaving a positive legacy for future generations to enjoy the natural wealth of our province.
