

6. Government and Political Reform

Whereas the people of Saskatchewan deserve to have their taxpayer's dollars treated responsibly and with respect;

Whereas it is important to have transparency and oversight with budgets;

Whereas it is important to have transparency with constituency boundaries;

Be it resolved the SLP institute a Fair Advertising in Government Act to prevent the misuse of public funds for propaganda purposes;

Be it further resolved the SLP ensure the full disclosure of MLA budgets to allow for greater scrutiny of office and legislative expenditures;

Be it further resolved the SLP give more power to the Provincial Auditor and increase their respective budget;

Be it further resolved the SLP ensure all constituencies have approximately the same number of people and their grouping is a fair reflection of the communities that reside there;

Be it further resolved the SLP look to reducing the overall number of constituencies to make them more commensurate with the actual population size of the province.
