

## **27. Health Care Reform: Incentives and Credits**

**Whereas** the health care system has faced increased strain since the onset of the COVID-19 pandemic, further highlighting the need for health care reform;

**Whereas** the American Medical Association estimates that approximately 9800 Canadian medical school graduates work in the United States;

**Be it resolved** the SLP explore incentives to recruit and retain medical personnel which will include training, retention, placement, and education benefits.
